Profile

Software Developer with 5+ years of industry experience, I'm passionate about using technology to create solutions that make a difference in people's lives. I've honed my skills through various projects, learning the importance of teamwork, communication, and problem-solving. Writing code is my greatest passion, and I've worked with diverse groups of people and learned different programming languages and frameworks.

Technology has the potential to change the world for the better by creating efficient systems, automating tasks, and connecting people. I'm excited about the potential of AI and machine learning to solve complex problems and make better decisions.

Employment History
